

BACKGROUND

Since the inaugural meeting of EATA (European Asphalt Technology Association) at the University of Nottingham in the Royal Moat House on July 6th, – July 7th, 2004, EATA conferences were held about every two years in different places, i.e. in Meriden (UK), Lyon (FR), Parma (IT), Braunschweig (DE) and Stockholm (SE). Starting with 99 participants and 11 presented papers, the EATA conferences regularly attracted more than 200 participants in the last few years with a continuously growing number of presented papers, which, now, in Dübendorf Switzerland, is expected to exceed the impressive mark of 30 papers.

For more information on EATA, see: <http://www.eata-group.eu>

CONFERENCE TOPICS

1. Durability and aging of binders and asphalt mixtures
2. New mixtures and mixture components
3. Modelling and testing
4. Asphalt mixture design, modelling and testing
5. Environmental aspects
6. Asphalt recycling
7. Advances in construction and asphalt production technologies
8. Structural design
9. Innovative asphalt pavements
10. Damage, aging and performance of pavements
11. Pavement rehabilitation

CONFERENCE CHAIRS

Manfred Partl (Chair)

Empa, Switzerland

Hervé di Benedetto (Co-Chair)

Université de Lyon/ENTPE, France

GENERAL INFORMATION

Location Empa, Dübendorf, Überlandstrasse 129
AKADEMIE

Costs „Early Bird“ Registration before April 7th, 2017
Standard CHF 550.–
Students, excl. Banquet CHF 275.–
Banquet for Accompanying
Guests or Students CHF 170.–

Regular Registration, April 8th – May 9th, 2017

Standard CHF 600.–
Students, excl. Banquet CHF 300.–
Banquet for Accompanying
Guests or Students CHF 180.–

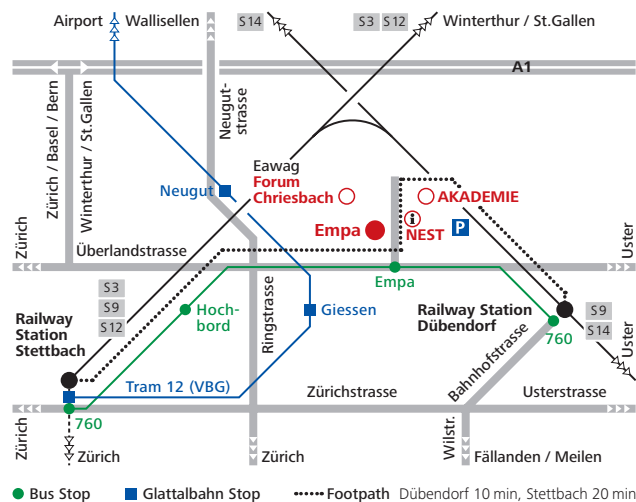

Late Registration, May 10th – June 6th, 2017

Standard CHF 700.–
Students, excl. Banquet CHF 350.–
Banquet for Accompanying
Guests or Students CHF 280.–

Registration eata2017.empa.ch

Cancellation After May 10th until June 6th costs are refunded, but a fee of CHF 50.00 has to be charged. After June 6th or in case of non-attendance full costs will be charged.

How to get here Please use public transport.
There is only very limited parking available.

CONFERENCE

7th EATA 2017 Conference

Empa, Dübendorf, Überlandstrasse 129
Monday, June 12th to Wednesday, June 14th, 2017
from 8:45 to 17:30

Online registration: eata2017.empa.ch

TOPIC

This 7th Conference EATA 2017 under the patronage of the EATA (European Asphalt Technology Association) is organized in Switzerland for the first time. It focuses on actual hot topics in the field of bituminous road materials and construction.

Most recent progress in characterizing, modelling, application and development of bituminous materials and structures are presented and discussed by widely recognized international experts in their field from all over the world. This includes water and climatic effects, long term-pavement performance, cracking and fracture energy, asphalt recycling as well as special new materials and technologies.

AIMS

EATA 2017 intends to provide an up-date on research and development in this complex and dynamic field for all interested people from Europe and from abroad. It also intends to open awareness of synergies with other research areas as motivation for out-of-the-box approaches and for seeking new opportunities for successful future asphalt research aside of traditional research paths. In this way, EATA 2017 is a unique opportunity for discussion and exchange of knowledge and ideas on the latest trends and achievements in road materials, pavement construction, design and performance.

PROCEEDINGS

Proceedings and selected posters are available by special Link on Conference website for registered participants only. Papers for oral presentation are published in the "Supplement of Road Materials and Pavement Design".

TARGET AUDIENCE

The conference addresses to scientists, researchers, engineers, experts, practitioners and decision makers as well as students who are confronted with specific scientific and practical questions regarding asphalt pavement materials, structural pavement design, material production and construction for meeting road user expectations and for fulfilling technical, economic, environmental requirements in view of sustainable development.

EATA 2017 DRAFT PROGRAM

	12th June	13th June	14th June
7h			
8h	Welcome & Registration		
9h	Opening Session	Session 4	Session 8
10h	Key Note Lecture		
11h	Coffee	Coffee	Coffee
12h	Session 1	Session 5	Session 9
13h	Lunch	Lunch	Lunch
14h	Posters	Posters	
15h	Session 2	Session 6	
16h	Coffee	Coffee	
17h	Session 3	Session 7 (Industry)	
18h		Walk to Dübendorf Station & Transportation	
19h	Poster Session & Reception		
20h		Banquet	
21h			
22h			

LANGUAGE

The official language of EATA conference and its presentations is English.

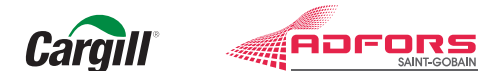

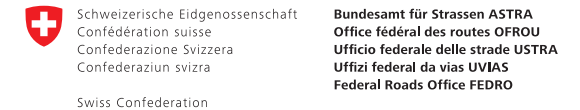

REGISTRATION

7th EATA 2017 Conference

Empa, Dübendorf, Überlandstrasse 129
AKADEMIE
June 12th to 14th, 2017, from 8:45 to 17:30

Please register online: eata2017.empa.ch
